The Dialog Model

The dialog model shall not be a delivery ready, finished work. Instead it shall be an emerging model of the original idea, the analyze about insights, needs, problems and solution that solves these needs. This involves the team, different stakeholders much more than a ready, finished and polished model.
The idea is to use the principe of 'building knowledge together.
There can be many different type of models, overview, conceptuals, technical and in graphic and in text.
